

MEDICAL COMPLIANCE IS WHAT WE DO

Why the1 Platform?

- Our software platform is the scientific tool that physicians need for bringing the new ACA and MACRA programs together
- Medicare, Accountable Care Organizations (ACOs), and most private commercial insurance plans have embraced preventative and precision medicine with comprehensive wellness programs
- The Affordable Care Act (ACA) has numerous preventative care and wellness program provisions that help physicians produce better patient care with significantly increased physician reimbursement
- MACRA (Medicare Access and CHIP Reauthorization Act of 2015) reporting requirements for new sweeping Medicare reimbursement laws took effect in January 2017

Approach to MACRA Compliance

the1 Platform software generates revenue for PCP physicians, and helps in the prevention of chronic illness, and catastrophic injury. Further, our software platform has the following features:

One Platform

One software platform for better patient outcomes

Increased Reimbursements

Better patient outcomes leads to increased insurance reimbursements

MACRA Ready

Platform includes numerous products to help physicians practice personalized medicine

Wellness Programs

Created specifically for the new provisions of MACRA and ACA.

Seamless Integration

Designed from the ground up to have seamless integration into physicians practices

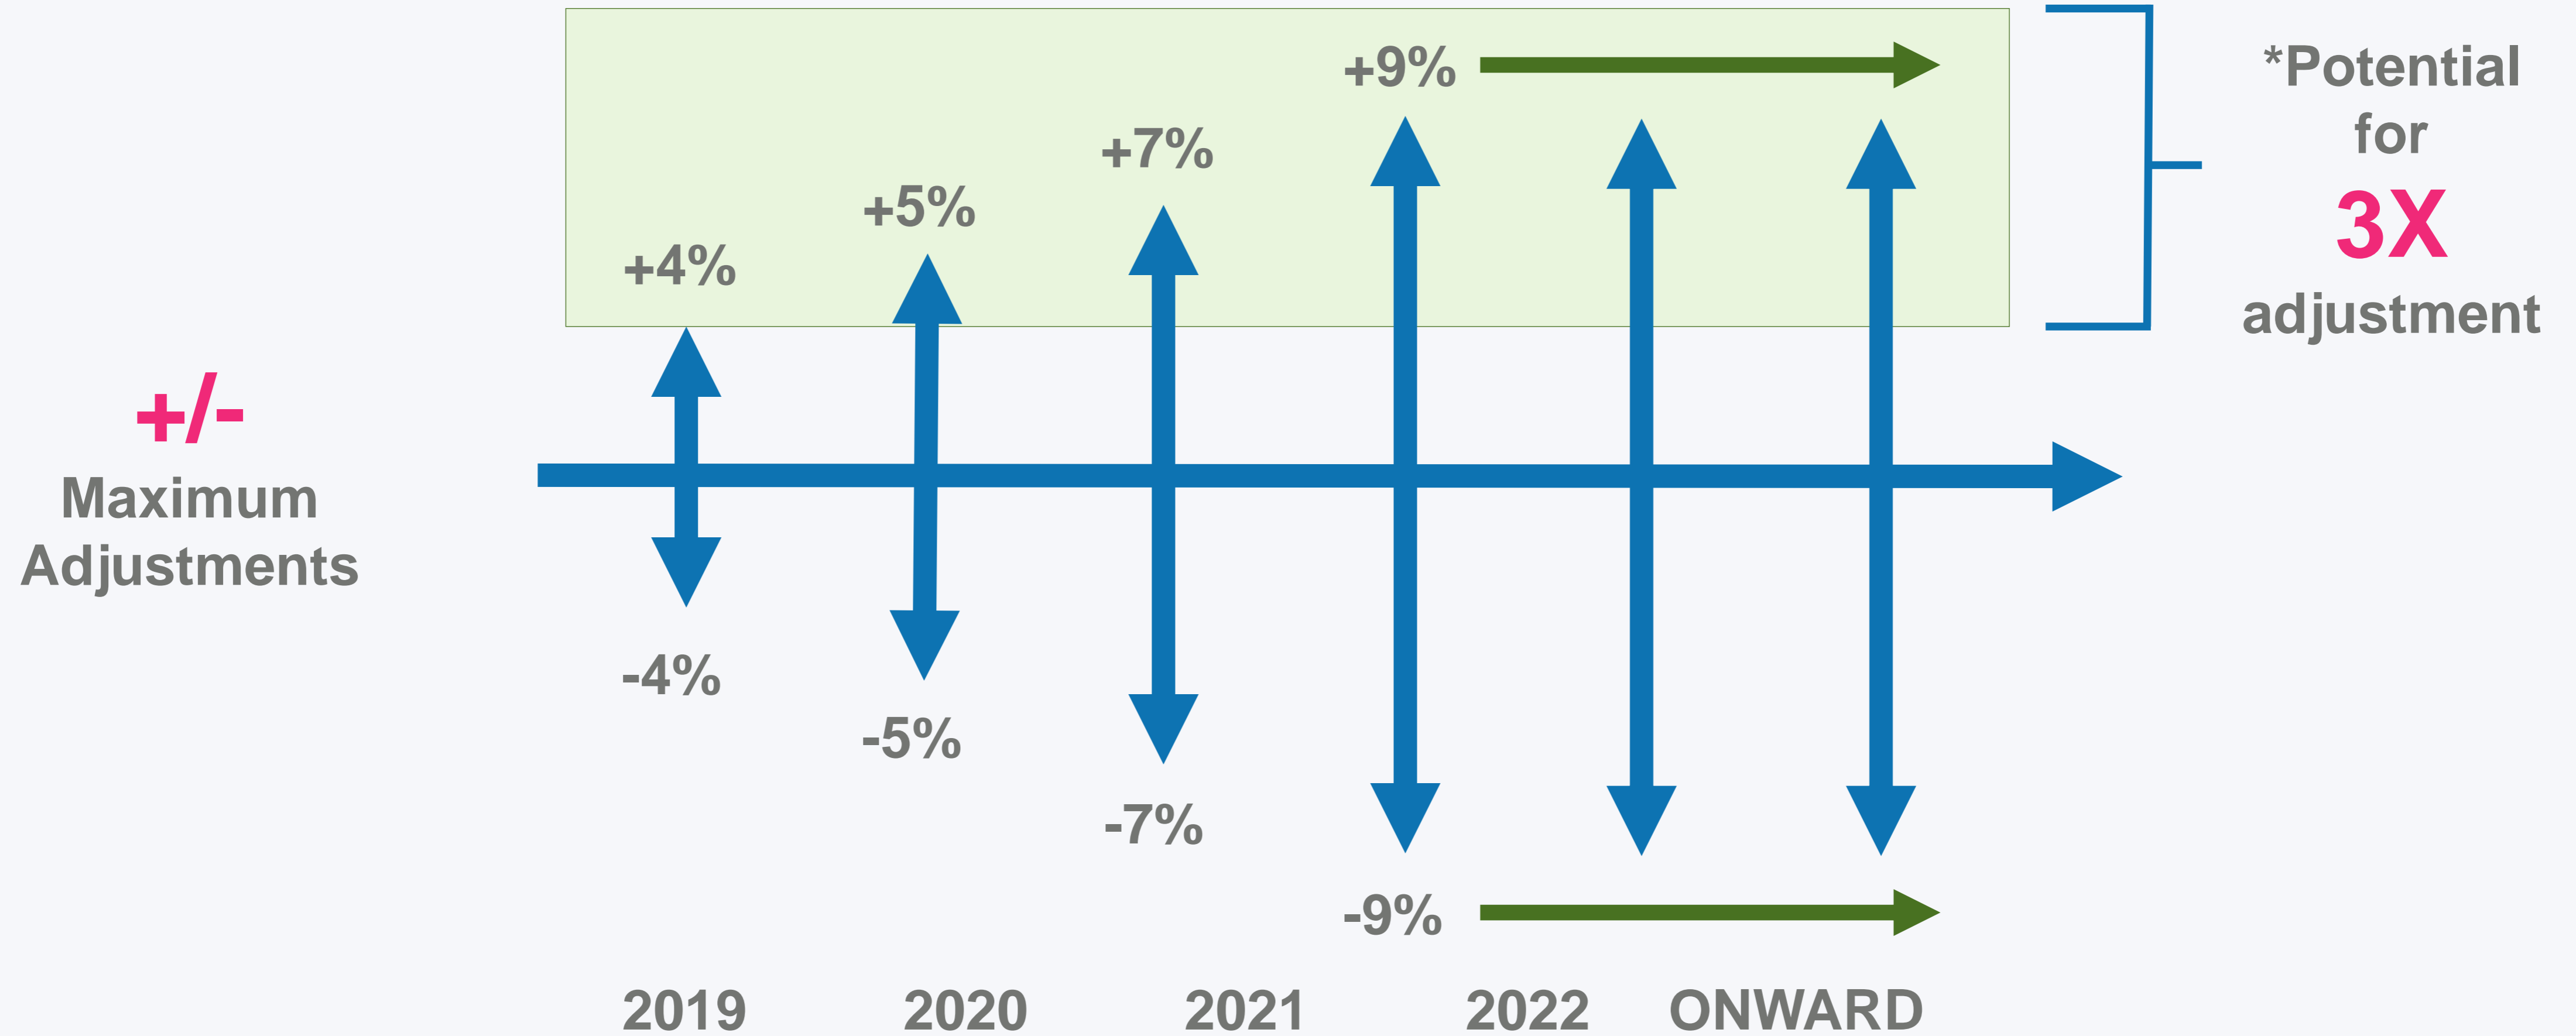

Fully Compliant

Platform is updated as necessary to ensure total medical compliance

Financial Impacts

MIPS Payments By Year

HOW IT WORKS

Preventive Medicine Assessments & Screening

- ✓ Annual Wellness Visit
